TYLER RHINEHART

FULL STACK SOFTWARE ENGINEER

tyler.rhinehart22@gmail.com
(208) 740-7855

Profile

Full Stack Software Engineer seeking community and environment of growth and innovation.

Skills

Innovation

Proven track record of bringing a spirit of innovation to new and legacy applications

Customer Obsession

From brainstorming to implementation, the customer is always at the center

Teamwork

As a leader and individual contributor, I rally my team together to perform the best work of our lives

---

Interests

I am avid learner and am always looking for ways to improve my craft. Whether it is generative AI, functional programming paradigms, or blockchain technologies I like to stay up to date on the latest technologies, tooling, and best practices so that I can bring the greatest value in the shortest time to my team and customers.

Experience

Motil   January 2022 - Present
Lead Software Engineer/CTO

Responsible for all technical decisions, architecture, implementation, and performance of Motil's web and two mobile applications. Hired and managed small team of engineers to build and maintain Motil's applications. Managed external development and designer partners. Built and maintain scheduling, payment processing, CRM, hosted customer business web fronts, LLM powered virtual business assistant, and many other features. Deployed two mobile apps for iOS and Android. Established and enforced design and code standards, focusing on simplicity, maintainability, and reusability. Averaged 24 hour turnaround time for reported customer issues.

Intuit   May 2019 - January 2022
Software Engineer 2

Dev lead for Quickbooks Time retention team, built GraphQL API for integration with Intuit Ecosystem, member of API Governance Team, held key positions for several innovations that spanned the entire product development organization, led many discussions around customer obsession based initiatives

---

Western Power Sports   September 2018 - May 2019
Web Developer

Create, debug, and improve internal and public API, data management system, brand websites, and marketing promo websites

---

Port One Five
Junior Developer

March 2018 - August 2018

Built and maintained custom websites using the custom framework LaraPress, which is built with Laravel and Wordpress. Improved skills of source control management, project deployment, development lifecycle, and efficient collaboration with team members

---

CodeWorks Boise
Student

July 2017 - October 2017

Gained the knowledge and skills needed to be a proficient full stack web developer. Built several web applications using Javascript, HTML, and CSS and built servers for those applications with Node.js and C#. Worked in groups to accomplish goals and complete projects

---

Four Rivers Crossfit
Head Coach

2016 - 2017

As head coach, I was the primary source of instruction and coaching for the members of the gym and ensured that the quality of programming and instruction was as great as possible

---

Champions College
Volunteer

2011 - Present

Member of the Planning and Development Committee and develop curriculum

---
