TECHNICAL DIRECTOR & FULL STACK
SOFTWARE ENGINEER

Profile

Technical Director and Full Stack Software Engineer
passionate about leading teams, driving technology strategy,
and building innovative solutions.

Skills

Innovation

Proven track record of
bringing a spirit of
innovation to new and
legacy applications

Customer Obsession

From brainstorming to
implementation, the
customer is always at the
center

Teamwork

As a leader and individual
contributor, I rally my team
together to perform the best
work of our lives

Interests

I am an avid learner and am always looking for ways to improve my craft. Whether it is generative AI, functional programming paradigms, or blockchain technologies I like to stay up to date on the latest technologies, tooling, and best practices so that I can bring the greatest value in the shortest time to my team and customers.

Experience

Advanced Ed Solutions, Inc. Technical Director

2015 - Present

Oversee all aspects of IT, software development, and technology strategy for a leading education solutions provider. Led the design and development of a comprehensive learning management and delivery system, enabling scalable and secure online education. Manage cross-functional teams to deliver innovative solutions that support business growth and operational excellence. Drive digital transformation initiatives, manage vendor relationships, and ensure compliance with industry standards and best practices.

Highwire Software Engineer

November 2023 - December 2024

Core member of team responsible for creating new contractor insurance and financial evaluation applications that directly led to acquisition of several new clients. Refactored and improved legacy code and features to improve reliability, maintainability, and correctness. Identified and proposed solutions for several security vulnerabilities, performance improvements, and product management/business processes. Led discussions on and presented language features, programming concepts, best practices, etc. to share knowledge and give my team tools to create better, less error prone code.

Freelance Software Engineer

September 2023 - November 2023

Worked with local non-profit and college to support marketing and business operations.

Motil

January 2022 - September 2023

Lead Software Engineer/CTO

Responsible for all technical decisions, architecture, implementation, and performance of Motil's web and two mobile applications. Hired and managed small team of engineers to build and maintain Motil's applications. Managed external development and designer partners. Built and maintained scheduling, payment processing, CRM, hosted customer business web fronts, LLM powered virtual business assistant, and many other features. Deployed two mobile apps for iOS and Android. Established and enforced design and code standards, focusing on simplicity, maintainability, and reusability. Averaged 24 hour turnaround time for reported customer issues.

Intuit

May 2019 - January 2022

Software Engineer 2

Dev lead for Quickbooks Time retention team, built GraphQL API for integration with Intuit Ecosystem, member of API Governance Team, held key positions for several innovations that spanned the entire product development organization, led many discussions around customer obsession based initiatives.

Western Power Sports

September 2018 - May 2019

Web Developer

Create, debug, and improve internal and public API, data management system, brand websites, and marketing promo websites.

Port One Five

March 2018 - August 2018

Junior Developer

Built and maintained custom websites using the custom framework LaraPress, which is built with Laravel and Wordpress. Improved skills of source control management, project deployment, development lifecycle, and efficient collaboration with team members.

CodeWorks Boise

July 2017 - October 2017

Student

Gained the knowledge and skills needed to be a proficient full stack web developer. Built several web applications using Javascript, HTML, and CSS and built servers for those applications with Node.js and C#. Worked in groups to accomplish goals and complete projects.

Four Rivers Crossfit

2016 - 2017

Head Coach

As head coach, I was the primary source of instruction and coaching for the members of the gym and ensured that the quality of programming and instruction was as great as possible.

Champions College

2011 - Present

Volunteer

Education

Boise CodeWorks - Boise, Idaho
Full Stack Web Development

Western Governors University - Salt Lake City, Utah
BA, Business and IT Management

Treasure Valley Community College - Ontario, Oregon
AA, Business
